SUMMER 2026 · WEEKLY PLANNING PATTERN

DEMO-201 · Occupancy

North building · Active · Classroom · theory · 45 seats

Recorded weekly pattern; effective-date changes and maintenance are not resolved here.

300 min
recorded booked / week

600 min
common usable / week

50%
300 within / 600 usable

3 timed events · 0 minutes outside common windows · overlapping bookings count once in minutes. Counts and intervals below are synthetic.

> Common windows = each stream's allowed minutes minus its own blocking breaks, then unioned. Batch-specific extensions are excluded. Gaps are planning information; dated maintenance follows in ROM-01C.

Weekly agenda

Saturday

Common windows 09:00–12:00 and 13:00–15:00 · 300 usable min

09:00–10:30 · DEMO-101
Merged demonstration audience · Primary room · 90 minutes

10:00–11:00 · Engineering reservation
Recorded OD reservation · Verification pending · 60 minutes

Overlap 10:00–10:30 · Both events remain visible. Occupied union is 09:00–11:00: 120 minutes.

11:00–12:00 · 60-minute potential gap

13:00–15:00 · 120-minute potential gap

Break 12:00–13:00 stays outside the gaps. Saturday booked 120 / 300 usable.

Sunday

Common window 09:00–14:00 · 300 usable min

09:00–12:00 · DEMO-202
Alternative room reservation · 180 minutes · full stored interval

12:00–14:00 · 120-minute potential gap

Sunday booked 180 / 300 usable.

Monday · Tuesday · Wednesday · Thursday · Friday

No common windows configured in this synthetic example. No potential gaps are claimed. The implemented view lists each weekday separately.

3 potential gaps

All days · At least 60 min · Any capability / seats

Saturday · 11:00–12:00
60 minutes

Saturday · 13:00–15:00
120 minutes

Sunday · 12:00–14:00
120 minutes

No dated availability guarantee. These are maximal contiguous gaps, not permission to place a particular class.

Uncertainty variant

Unverified booking data

An OD note names this room without a weekday/time. Known occupied minutes can still be shown; every gap carries this warning until the note is resolved.

A known-day note affects that day; an unknown-day note affects the whole week. No time is invented.

Capacity & capability alerts

DEMO-202 has an unknown audience count. Room capacity is 45; fit remains unverified. No student names or private contact details are shown.

Inactive room variant: occupancy remains readable; no assignable gap results. No-window variant: utilization “Not configured”. Invalid filters show field errors; no misleading results.
