DEMO-WEEK · weekly occupancy

Generated 29 Oct 2026, 11:17 am (Asia/Dhaka). This combines the term's active weekly records, including disjoint effective ranges. It does not resolve real dates, holidays, cancellations or maintenance. Every room role reserves the full stored interval.

Weekly calculation

1375 recorded booked minutes · 23 distinct events · 985 booked within common windows · 2700 common usable minutes · 390 booked outside common windows · 36% utilization

Common windows union stream-wide permitted minutes after subtracting each stream's own blocking breaks. Batch exceptions do not change this baseline. Overlapping/touching bookings count once in union minutes; event counts remain distinct.
